  - Finalized SOG
  - SAT SharePoint
  - Training/Workshop/Exercises
  - Funding/Pcard
- Future: All Hazard Incident Management Teams (AHIMTs)
THE FLORIDA DIVISION OF EMERGENCY MANAGEMENT

AHIMT TYPING

- **Type 3: State or Metropolitan Area Level**
  - Type 3 IMTs State or large portions of the State.

- **Type 2: National and State Level**
  - Federally or State-certified team and is typically used on smaller scale national or state incidents.

- **Type 1: National and State Level**
  - Federally or State-certified team is the most robust IMT with the most training and experience.
WHY CREDENTIAL IMTs?

- Having established standards allows the community to plan for, request, and **have confidence** in resources deployed from other jurisdictions for emergency assistance.

- Credentialing ensures that personnel resources **match requests**, and it supports effective management of deployed responders.
AHIMT Planner at DEM

1. Assist applicants
2. Manage funding sources
   1. USAI
   2. Homeland Security
   3. EMPG
3. Training/Exercises
4. Implementation of the DSOC Credentialing Guide approved in March 2013
