RE: Florida Strategic Plan for Statewide Geographic Information Systems (GIS) Coordination

Dear Mr. ^{*Hartsfield*} Butgereit:

After the review of "Florida's Strategic Plan for Statewide Geographic Information Systems" (GIS) coordination I wish to offer the Seven Hills Regional Users Group's (SHRUG) endorsement of the strategic plan.

This effort to broaden geospatial coordination will offer agencies within the state an avenue to expand GIS efforts that will help manage environmental impacts, emergency response and natural resources.

I wish to congratulate you and the steering committee for the care and thought that went into the development of the strategic plan and wish you continued success.

Sincerely,

Tricia McClenahan
SHRUG President
