*Note: The amounts shown are initial 90 day estimates and should be used for planning purposes only. These figures are based upon best available data as of October 2009 and are subject to change.

The State anticipates that FEMA will provide the 6-month Lock-in estimate for the Hazard Mitigation Grant Program December 2009. This future estimate will be used to re-evaluate the initial 90 day estimate and establish a lock-in ceiling. At this time the lock-in ceiling will reflect any increase or decrease in the amount of available HMGP funding
