RE: FEMA 1806-DR-FL 6 MONTH LOCK-IN COUNTY ALLOCATIONS

In accordance with the Federal Emergency Management Agency (FEMA) and the Hazard Mitigation Grant Program (HMGP) Administrative Plan for Hurricane Gustav (FEMA 1806-DR-FL), the following information is being disseminated to Local Mitigation Strategy (LMS) chairs and State Area Regional Coordinators. Please share this message with your local officials.

As of April 22, 2009, FEMA has made available the 6-month lock-in totals for Hurricane Gustav. The available funding for HMGP Regular projects has been set at \$2,635,665.00.

While there is a decrease in FEMA's previously estimated figure, which was based upon preliminary damage estimates forwarded by impacted communities, funding is a percentage of the aggregate amount of Hurricane Gustav Assistance given under the Stafford Act to include Public Assistance, Individual Assistance and Small Business Administration loans.

Your county's adjusted allocation (attached) is calculated based on proportional shares of the total federal share assistance to the State. The State will review and recommend local projects according to the Local Mitigation Strategy prioritization letters.

If you have concerns/questions regarding this matter, please contact Kathleen Marshall at 850/922-5944.
