I. INTRODUCTION

The purpose of Emergency Support Function (ESF) 18 is to coordinate local, state and federal agency actions that will provide immediate and short-term assistance for the needs of business, industry and economic stabilization. Preparedness and response assistance may include accessing the financial, workforce, technical, and community resources that may affect a community’s ability to restore business operations as quickly as possible and resume focus on long-term business strategies. Coordination of local, state and federal business assistance is done primarily through networks of local and regional economic, workforce and tourism development partners, as well as business support organizations who determine the most efficient and effective ways to manage the access to these services at the local and regional level. ESF 18 will support the State Emergency Response Team’s (SERT’s) efforts via identification and solicitation of resources to meet identified needs. ESF 18 will also support SERT efforts by facilitating and coordinating intermediate and long term economic impact statements.

II. CONCEPT OF OPERATIONS

A. GENERAL

The coordination of state agencies and organizations involved in assisting local economic development, workforce, tourism and other business support agencies and organizations includes the performance of tasks related to preparedness, response, recovery and mitigation where local resources are not sufficient and local government requests state assistance. Included among ESF 18 tasks are the following:
1. Provide information and training on implementing support to the business community.

2. Provide economic damage assessments to SERT.

3. Provide recovery assistance to businesses of all sizes in all industry sectors through the networks of state, regional and local partners.

4. Coordinate with regional and local economic and workforce development and business organizations to refer volunteer personnel to the affected county(ies); coordinate efforts to provide immediate assistance to the employers and employees in a requesting county.

5. Coordinate with the SERT Plans Section to ensure that information is provided on the assessment of overall physical and economic damage to the business communities and business preparedness, response and recovery matters, before, during and after the disaster.

6. Coordinate and facilitate communication between Florida retailers and the SERT Logistics Section.

7. Facilitate communication of specific business and industry sector status or ability to return to normal operation post event. This information will be used to provide appropriate and timely logistical support to affected counties.

8. Coordinate with the SERT External Affairs to support public education efforts, press releases, media interviews, and distribution of printed materials that describes the available resources and business assistance initiatives, including small business assistance centers and workshops, that are being activated in each impacted community.

9. Coordinate with all ESFs as deemed appropriate based on the disaster event type.

10. Coordinate and facilitate the delivery of a comprehensive economic impact statement as appropriate based on the disaster event type.

11. Serve as a member of the State of Florida's Intergovernmental Team to deliver accurate information regarding the economic impact of the disaster on the local communities and industry sectors.

12. Coordinate with local economic development organizations and other sources of business damage impact information to determine general business needs and to determine the desire and need of the community to request activation of the Florida Small Business Emergency Bridge Loan Program and/or small business assistance centers and workshops.

12. Coordinate with ESF 15 Volunteers and Donations to locate and arrange for distribution of emergency and longer term relief supplies that can be sourced from Florida-based companies.
13. Coordinate and facilitate pre and post event workshops for educating and training businesses in disaster preparation, business continuity planning and recovery.

14. Support the development of and training for an enhanced pool of qualified Florida businesses that can respond to public and private resource needs (products and services).

B. ORGANIZATION

1. ESF 18 personnel will be managers, skilled professionals with subject knowledge, and operations personnel qualified to expedite decisions. In coordination with Florida Department of Economic Opportunity (FDEO) and the Florida Division of Emergency Management (FDEM) participating agencies will be required to develop plans and procedures that support their ESF assignments.

C. OPERATIONAL OBJECTIVES

1. Preparedness Objectives:
   a. Education and training of business community, local and regional organizations and staff.
   b. Encourage and coordinate local agencies/organizations and resource organizations participation in disaster exercises. Work with the state coordinating officer to encourage local economic development organizations to become emergency operations partners and build local teams and networks.
   c. Assist in releasing information annually on disaster planning and safety for businesses through news releases, electronic advisories, or printed materials/brochures.
   d. Develop and maintain a database of all county/local primary economic, tourism, and workforce development organizations and other designated business support organization emergency coordinators.
   e. Assist local primary economic development organizations and their support organizations in identifying financial or other resources that may be employed to assist in immediate and long-term business recovery.
   f. Develop and maintain a database of agencies and private associations that will provide additional support to conduct emergency support for business recovery in any impacted community. This will include information on the type of services being offered, number of volunteers, resources available, and
contact person with telephone numbers and logistical abilities of each agency.

g. Coordinate and maintain data networks and capacity to facilitate expeditious delivery of comprehensive economic impact statements as necessary.

2. Response Objectives:

a. Track the business and economic preparation and recovery activities of all local primary economic and tourism development organizations as well as other business support organizations before, during, and after the disaster.

b. Maintain a roster of support agencies/organizations emergency coordinators.

c. Coordinate with ESF 2 and the Plans Section to both provide and disseminate information pertinent to assisting in emergency response and recovery to impacted businesses and communities.

d. Coordinate initial assessment of general business impact (in terms of employment, lost revenues, lost customers, etc.) through coordination of locally based economic development and business support agencies/organizations.

3. Recovery Objectives

a. Continue to coordinate assessments of general business impact (in terms of physical damage, employment, lost revenues, lost customers, etc.) working with locally based economic development, tourism, workforce, and business support agencies/organizations.

b. Coordinate with state, regional and local agencies/organizations, to compile estimates of physical damage to local business communities necessary to determine the need to request activation of the Florida Small Business Emergency Bridge Loan.

c. Coordinate with local economic development emergency coordinators to identify and train local bank officers to participate on loan committees and schedule loan committee meetings in the affected communities if the State’s Emergency Bridge Loan program is activated.

d. Coordinate with federal, State, regional and county agencies and other business support resources to establish Business Assistance/Resource Centers and Business Resource Workshops in impacted communities.
e. Coordinate the compilation of longer-term economic impact assessment of general business impact (in terms of employment, lost revenues, lost customers, etc.) through locally based economic, tourism development and business support agencies/organizations.

f. Coordinate the development and delivery of comprehensive intermediate and long term economic impact statements.

g. Contact and maintain communications with the private sector, local and statewide economic development, tourism, workforce and business support organizations and state agencies to foster participation in ESF 18 activities.

h. Participate in long-term recovery activities involving state and federal agencies. Facilitate and coordinate the involvement and participation of local and regional economic development, tourism, workforce and business support organizations in such efforts at the local level.

4. Mitigation Objectives

a. Facilitate the identification of and access to sources of infrastructure financing that augment existing state and community resources that enhance mitigation efforts.

b. Coordinate participation of local partners on Hazard Mitigation Assessment Teams.

D. Direction and Control

1. The activities of ESF 18 initially will be coordinated through the State Emergency Operations Center (SEOC). FDEO and FDEM will ensure adequate staff is provided at the SEOC
